PROJECTS

PG LIFE -

Solo Project | Nov - 2023

- Objective: To create an online platform for finding PG accommodations in major cities like Bengaluru, Hyderabad, Delhi, and Mumbai.
 - Frontend: User-friendly interface for searching and viewing PG properties with detailed descriptions and amenities.
 - Backend:
 - User authentication with secure login and signup.
 - Technologies: MongoDB for database management, Mongoose, and Express.js.
 - Key Features:
 - Search bar to search PGs by city.
 - Display properties in supported cities; show message for unsupported locations.
 - Dynamic breadcrumb navigation based on user input.
-

PORTFOLIO -

Personal Project | Feb - 2024

- Objective: To showcase personal projects, skills, and professional achievements in a structured and visually appealing manner.
- Structure: Features four main sections: Home, About, Projects, and Contact, providing a comprehensive overview of the developer's work.
- Content:
 - Displays detailed descriptions and live demos of various projects.
 - Integrates contact forms and social media links to facilitate networking and professional connections.
- Key Features:
 - Organized layout with intuitive navigation.
 - Regular updates with new projects and achievements to reflect ongoing learning and development.
- Portfolio Link: [Click Here](#)

ACHIEVEMENTS

- Solved 75+ coding problems on LeetCode, demonstrating strong problem-solving skills and proficiency in algorithms and data structures.
- Earned Silver level badges in C and C++ on HackerRank, showcasing expertise and dedication to mastering these programming languages.

CERTIFICATIONS

- Web Development Certification - [Internshala](#)
- Google Cloud Fundamentals: Core Infrastructure Certification - [Coursera](#)
- Augmented Reality And Virtual Reality - [SDP\(University\)](#)
